

Easy Code Formatter

Support Policy

This is the first support policy, published with the release of the add-in. Applicability of this document commences on the first day that the add-in appears on appsource.microsoft.com or 20th of January 2019, whichever is before. If a new support policy is published, it will contain a link to this document.

This policy discloses the support details for **Easy Code Formatter**. It will notify you of the following:

1. Software disclaimer.
2. Contact and general support.

Software Disclaimer

Easy Code Formatter add-in is provided "as is" without warranty of any kind. Use at your own risk.

The use of the software is done at your own discretion and risk and with agreement that you will be solely responsible for any damage to your computer system / damage to your document or loss of data that results from such activities. You are solely responsible for adequate protection and backup of the data and equipment used in connection with any of the software, and we will not be liable for any damages that you may suffer in connection with using this software. No advice or information, whether oral or written, obtained by you from us or from this website shall create any warranty for the software.

We make no warranty that

- The software will meet your requirements
- The software will be uninterrupted, timely, secure or error-free
- The results that may be obtained from the use of the software will be effective, accurate or reliable
- The quality of the software will meet your expectations
- Any errors in the software obtained from us will be corrected.

In no event shall we be liable to you or any third parties for any special, punitive, incidental, indirect or consequential damages of any kind, or any damages whatsoever, including, without limitation, those resulting from loss of use, data or profits, and on any theory of liability, arising out of or in connection with the use of this software.

Contact and general support

- For getting in touch regarding a bug or further queries, please use the *email to developer* button. If this feature is not working, use this link: [contact developer](#).
